## \$2,000 Nurse Referral Bonus Program

Receive a \$1,000 nurse referral bonus upon your referral's successful completion of their entire first 13-week assignment with Worldwide. If your referral successfully completes their entire second 13-week assignment with Worldwide you will receive an additional \$1,000 referral bonus. That potentially equals \$2,000 per referral!

The following conditions must be satisfied to be eligible to receive a Referral Bonus:

1. The referring party must contact a Worldwide recruiter and provide the name and contact information for their referral candidate so that Worldwide can log the information in the referral system.
2. The referred candidate must be "new" to Worldwide. If the referred candidate already exists in Worldwide's database they cannot be referred, and no referral bonus will be issued.
3. The referred candidate must complete a Worldwide application for employment and list the name of the referring party under the referral source section of the application. (i.e. How did you hear about Worldwide?)
4. The referred candidate must successfully complete their entire 13-week assignment(s). Worldwide defines an assignment as full-time, 13-weeks, and 520 regular hours of work completed in the required time period if so stipulated in the referred candidate's agreement.

All four conditions must be satisfied to be eligible for a Referral Bonus. Partial or prorated Referral Bonuses will not be issued.
